Facilities

1- Vast Play Ground

Play Ground provides many learning opportunities through different types of Games. Outdoor play allows; physical, emotional, mental, intellectual, imaginative, cognitive and social well-being development of children. Exercise improve health and well being of students. In school, playtime are vitally important to children for their fun and relaxation. And our school has a play ground in which we conduct various sports such as Cycling, Volley Ball, Badminton, Kho-Kho, Kabbadi, etc. for students to develop their skills in field of sports also.

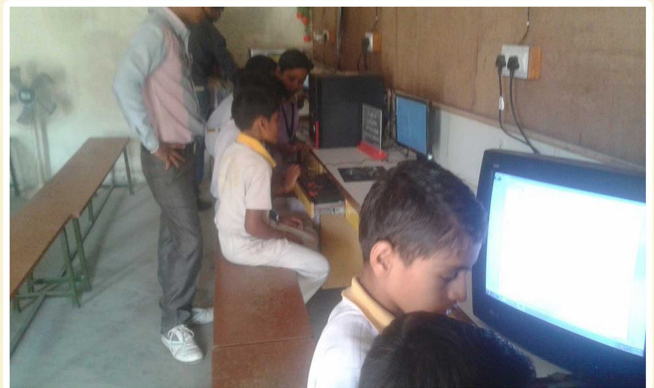

2- Education with Culture

The value of cultural Education as a well being invaluable and enjoyable in its own right, participation in cultural activities, also gives young children the chance to develop important life skills such as creativity, confidence, self discipline, effective communication and the ability to work in teams perfectly. Our school has specialist teachers to teach various cultural activities such as Yoga, Dance, Drama, etc.

3- Computer Lab

A Computer Laboratory is important in every Private and Government School to enhance the scientific, technological and invention capacity of Students. And to do that effectively they need a Computer Lab. To practice what teachers taught in class, they need a Computer Lab, and our School provides them Computer Lab to enhance their Quality in the field of Information Technology (I.T.). Our Computer Lab has latest Computer technology with updated version that will create more interest in Students to learn.

4- Transportation

We have decided to provide a quality education to all students. As we saw that some students from rural areas can not afford such school and for valuable transportation. We provide the transportation at a very low fee for all the Students.

5- Water Purifier

The Water processed by an advanced water purifier has a great taste. So the Students drink more water in our school which keeps them hydrated. A water purifier offers the water full of healthy minerals, which help the students in our school to maintain health and stay safe and fit.

6- Projector Classroom

Smart class is a digital initiative, which is rapidly transforming the way teachers teach and students learn. This makes learning an enjoyable experience for the students while improving their overall academic performance in school. Smart class technology allows students to make presentations online and get feedback from their teachers in less time.
